OUR MISSION

Our mission and goals are to FUEL a child's desire to get involved in business EARLY by increasing their curiosity with simple, engaging, and creative activities in a SAFE environment.

- ⊕ Provide Transitioning Service Members with work experience in the Science, Technology Engineering, and Math industry.
- ⊕ Offer 100% job placement to Veterans and their spouses at any of our STEM Camp locations.
- ⊕ Operate inside Public, Private, and Installation bases throughout the United States.

STEAM-FOCUSED ACTIVITY ZONES

Computer Lab

BECOME A CERTIFIED COMPUTER PROGRAMMER

During your DoDSkillBridge time at SW Design School LLC, you will learn an introduction to Coding, 3D Game Development, Graphic Design, and Web Design. If you decide you like the TECH skills, we can certify you as a programmer.

V/R CAD Machine

AUGUMENTED REALITY SOFTWARE

This software simulates the perception of depth, another hallmark of AR and VR technologies. With depth, objects look much like they would in real 3D space, and this illusion further drives student engagement.

Robotics Lab

BUILDING AND PROGRAMMING ROBOTS

Our hands-on experience of building a robot, programming the movement brings an sense of accomplishment. The language the Robot understands is based on the C programming language and concept.

Science Lab

SNAP CIRCUITS

Our Advance Engineering Snap Circuits come with over 80 pieces to create over 750 different electronic projects. The pieces, which include snap wires, slide switches, resistors, an FM radio module, and a solar cell, snap together easily on the included plastic grid–no soldering used.

3D Printing Labs

RAISED DECORATIVE DESIGNS

3D printing helps students understand the real-world process of product development and production, preparing them for the workforce. 3D Pens allow our students to effectively draw with plastic. They can work the plastic into just about any shape and apply it to most surfaces.

Entrepreneurialship

LEADERSHIP AND COMMUNICATION SKILL DEVELOPMENT

This zone consist of creating your own clothing line utilizing the Cricuit Machine and the Embrodiery Machine. You will also make your handmade soaps and candles. All these skills are taught to our K-12th Graders which you will learn to teach at our STEM Camps.

COMPUTER PROGRAMMER APPRENTICESHIP

HAVE YOU ALWAYS WANTED TO LEARN HOW TO CODE BUT DIDN'T KNOW HOW TO GET STARTED?

DON'T MISS OUT ON THIS GREAT OPPORTUNITY!

Can you think critically? Do you like solving problems? Can you learn fast and still be ok receiving criticism when you're wrong?

Our apprenticeship programs are providing an opportunity for unemployed and underemployed individuals with an emphasis on increasing the opportunity for youth, women, minorities, and Veterans to enter the information technology workforce.

SW Design School LLC is also an approved VA Apprenticeship and OJT training provider for Veterans in ALL Military Branches.

Total Hours of Commitment - 4288

GRAPHIC DESIGN APPRENTICESHIP

Photoshop

Is graphic design dead? The answer is a **resounding NO**.

Illustrator

Recent studies conducted by IBISWorld show that in 2019 alone, the industry generated a revenue of \$15 billion with an annual growth rate of 3.5%.

InDesign and After Effects

It is expected to grow further at a rate of 2.7% to become a \$14.8 billion-dollar-strong industry.

In short, graphic design is one of the best careers you can choose to pursue. This course supports individuals with no prior design experience.
